HYDROBIOLOGICAL JOURNAL

VOLUME 25

CONTENTS FOR 1989

Number 1

Yu.V. Pligin and L.V. Yemel'yanova: Acclimatization of Caspian Invertebrates in Dnieper Reservoirs 1
R.A. Kalinichenko: Primary Production of Microperiphyton in a Nuclear Power Plant Cooling Pond 10
S.Ye. Zavalko: Evaluation of Production and Purification Potential of Cystoseira in an Eutrophic Marine Ecosystem 15
V.Ye. Kobova and N.I. Spitskaya: Investigation of Two-Stage Trophic Chains in a Chemostat 20
A.A. Koval'chuk: Infusoria of the Genus Enchelyodon in Benthic Communities of the Kiev Reservoir 26
T.A. Kharchenko, A.V. Lyashenko, and O.A. Davydov: A Fresh-Water Sponge Consortium in the Dnieper-Donbass Canal 32
V.P. Foroschuk: Water-Protection Activity and Water Quality Standard-Setting 37
O.M. Kozhova and N.V. Dutova: Morphological Diversity of Planktonic Bacteria as an Index of Water Quality 42
N.I. Tsokur and N.A. Stepanok: Biological Activity of Ooze in Odessa Bay by Season 49
G.D. Berdyshev: Gametones and Testiones, the Principle Proteins of Hydrobiont Chromatin (a Survey) 54
R.I. Gosh: Energy Metabolism of Fish Spermatozoa (a Survey) 62
O.V. Parina and R.D. Ozrina: Evaluation of the Toxic Effect of Organotin Compounds in Carp as Related to Their Accumulation and Excretion 73
V.A. Nikolayenko: Hydrochemical Conditions and Water Quality in Reservoirs of Central Asia 80
L.V. Kalabina, P.N. Linnik, and B.I. Nabivanets: State of Dissolved Forms of Hexavalent Molybdenum in the Dnieper River 86
L.A. Sirenko, M.I. Medvedev, Z.N. Shkavro, Yu.G. Krot, S.N. Malina, M.N. Pakhomova, N.A. Chernysheva, and I.Yu. Ivanova: Separation of Microalgae by Ultrafiltration Through Polymer Membranes 92
Ye.V. Krasnoper: Determination of Amount of Tubificids in the Diets of Fish 95
Ye.N. Tsaplina: Decomposition of Common Reed at Low Temperatures 101
L.L. Miroshnik: Microzoobenthos of the Pripyat' River 104
L.L. Kuznetsov and T.L. Strogaya: Production Characteristics of Microphytobenthos and Oxygen Consumption of the Littoral Community of Dal'nyye Zelentsy Bay (Barents Sea) 109
V.M. Strel'nikova: Relationship Between Body Weight, Length and Caloric Content in the Antarctic Hyperiid Parathemisto gaudichaudi 113

Number 2

V.D. Romanenko and I. Daubner: Limnological Problems of the Danube and Their International Solution 1
D.V. Dubyna and Yu.R. Shelyag-Sosonko: Principles of the Classification of Aquatic Macrophytes 6
P.S. Lopukh: Patterns of Overgrowth of Small Reservoirs of Belorussia . . .
T.A. Zakhodnova: Chlorophyll a Content of Littoral Microalgal Coenoses of a Mesotrophic Lake 16 22

O.M. Kozhova and N.V. Dutova: Morphological Diversity of Planktonic Bacteria as an Index of Water Quality 42
N.I. Tsokur and N.A. Stepanok: Biological Activity of Ooze in Odessa Bay by Season 49
G.D. Berdyshev: Gametones and Testiones, the Principle Proteins of Hydrobiont Chromatin (a Survey) 54
R.I. Gosh: Energy Metabolism of Fish Spermatozoa (a Survey) 62
O.V. Parina and R.D. Ozrina: Evaluation of the Toxic Effect of Organotin Compounds in Carp as Related to Their Accumulation and Excretion 73
V.A. Nikolayenko: Hydrochemical Conditions and Water Quality in Reservoirs of Central Asia 80
L.V. Kalabina, P.N. Linnik, and B.I. Nabivanets: State of Dissolved Forms of Hexavalent Molybdenum in the Dnieper River 86
L.A. Sirenko, M.I. Medvedev, Z.N. Shkavro, Yu.G. Krot, S.N. Malina, M.N. Pakhomova, N.A. Chernysheva, and I.Yu. Ivanova: Separation of Microalgae by Ultrafiltration Through Polymer Membranes 92
Ye.V. Krasnoper: Determination of Amount of Tubificids in the Diets of Fish 95
Ye.N. Tsaplina: Decomposition of Common Reed at Low Temperatures 101
L.L. Miroshnik: Microzoobenthos of the Pripyat' River 104
L.L. Kuznetsov and T.L. Strogaya: Production Characteristics of Microphytobenthos and Oxygen Consumption of the Littoral Community of Dal'nyye Zelentsy Bay (Barents Sea) 109
V.M. Strel'nikova: Relationship Between Body Weight, Length and Caloric Content in the Antarctic Hyperiid Parathemisto gaudichaudi 113

Number 2

V.D. Romanenko and I. Daubner: Limnological Problems of the Danube and Their International Solution 1
D.V. Dubyna and Yu.R. Shelyag-Sosonko: Principles of the Classification of Aquatic Macrophytes 6
P.S. Lopukh: Patterns of Overgrowth of Small Reservoirs of Belorussia . . .
T.A. Zakhodnova: Chlorophyll a Content of Littoral Microalgal Coenoses of a Mesotrophic Lake 16 22

G.A. Zhdanova, L.V. Skorik, V.I. Shcherbak, and A.I. Sergeyev: Evaluation of Changes in Trophicity of Kiev Reservoir During Its Existence 28
N.I. Spitskaya and V.Ye. Kokova: Growth of Rotifer Cultures at Various Food Levels 34
O.F. Filenko, V.V. Lazareva, and Ye.F. Isakova: Relationship Between Crytogenetic and General Biological Characteristics of Daphnia in Culture . . 38
G.Kh. Shcherbina: Production of Monocyclic Species of Chironomids in Lake Vishtynetskoye 42
N.N. Gorilenko and S.M. Beloglazov: Development of an Accumulative Culture of Sulfate-Reducing Bacteria as a Function of Initial Environmental pH . . 46
L.V. Antsupova, I.A. Stepanyuk, V.K. Golovenko, and T.A. Petkevich: Biochemical Functioning of Black Sea Hydrobionts of Various Taxonomic Groups . . 49
V.B. Atnashev: Temperature Tolerance of Fish at Various Environmental Temperatures 55
A.A. Soldatov: Blood Oxygen Binding Function of the Round Goby During Adaptation to Environmental Temperature 59
G.P. Lipnitskaya, T.V. Parshikova, and Ye.K. Topalova: Effect of Sodium Dodecyl Sulfate on Growth of Chlorella and Microcystis in Culture 64
M.N. Korsak and A.V. Lifshits: Effect of Zinc and Chromium on Production of Phytoplankton in Long-Term Experiments 69
O.N. Dubchak, L.S. Kipnis, and M.A. Fomovskiy: Toxicity to Hydrobionts of Coagulants Prepared from Aluminum-Containing Wastes of Dye Production . . 74
A.P. Khomik and T.A. Karchenko: Role of Bivalves in the Redistribution of Heavy Metals in the Upper Donbass Canal 77
N.M. Isayeva and O.N. Davydov: Fish Mycoses: A Survey 81
N.G. Aleksandrova and V.L. Gil'man: Hydrologic and Hydrochemical Description of Certain Sections of the Dnieper Delta 87
P.N. Linnik, A.A. Leshchinskaya, and B.I. Nabivanets: Methodology for Investigating Coexisting Forms of Chromium in Natural Waters 91
N.V. Arzhanova: Nutrient Conditions for Phytoplankton in Antarctic Waters . 97

Number 3

L.Ye. Kostikova: Primary Production of Periphyton and Its Role in the Littoral Ecosystem 1
M.A. Rychkova: Role of Water Mass Dynamics in Formation of Epiphyte Algae Communities in a Lake 7
P.A. Kalinichenko: Blue-Green Algae of Periphyton of a Cooling Reservoir of Chernobyl Nuclear Power Plant 10
K.B. Yakubovskiy, I.M. Velichko, A.P. Pasichnyy, V.M. Sidorenko, and L.A. Khordshikh: Importance of Shallow Waters of Dnieper Reservoirs in the Processes of Water Purification 16
A.G. Kasymov: Hydrobiological Characteristics of Shore Waters of Neftyanyye Kamni Island in the Caspian Sea 20
N.I. Spitskaya: Growth of Rotifera Cultures Under Different Trophic Conditions 23
N.M. Kryuchkova and V.Kh. Rybak: Feeding of Moina rectirostris on Phytoplankton in a Hypertrophic Water Body 30
A.V. Lyashenko and T.A. Karchenko: Annual Dynamics of Energy Metabolism in Dreissena 34
V.N. Zhukinskiy and V.P. Bilenko: Survival Rate of Carp Embryos and Fry in Relation to pH 42
I.V. Shevtsova: Importance of the Bug River Dreissena for Decreasing Organic Matter and for the Sedimentation of Suspended Substances 47
I.A. Balakhin: Protectins in Invertebrates and Fishes: A Survey 52
O.F. Filenko and V.V. Lazareva: The Effect of Toxic Agents on the General Biological and Cytogenetic Indices in Daphnia 59
V.I. Luk'yanenko, V.A. Ternovenko and Ye.L. Nikiforova: The Influences of Daily Rhythm and Salinity on the Ability of Juvenile Sticklebacks to Avoid Zinc 63
V.M. Timchenko and V.I. Vishnevskiy: Physical Modeling of Water-Mass Dynamics in the Dniester Lagoon 67
L.A. Zhuravleva and P.N. Linnik: Factors Governing Extreme Situations in the Hydrologic Regime of the Dnieper-Bug Lagoon 73

G.A. Vinogradov and V.B. Tagunov: A Device for Studying the Effect of Various Substances on Fish and Invertebrates Under Flow-Through Conditions . 78
V.N. Samoylenko and T.V. Golovko: A Method of Studying Sulfate Reduction in Bottom Ooze 82
Yu.B. Nabivanets: Forms of Occurrence of Zinc and Lead in Natural Waters . 85
B.N. Belokon': Occurrence of Forms of Heavy Metals in Bottom Sediments of Sasyk Reservoir 89
A.Ya. Zesenko and T.V. Pavlovskaya: Use of Radioisotopes of Phosphorus to Measure the Gazing of Crustaceans 95
S.M. Golubkov and T.M. Tiunova: The Effect of Oxygen Concentration of the Respiration Rate of Rheophilic Larvae of Megarcys ochracea (Plecoptera) in Lotic and Lentic Conditions 100
N.V. Bekhov: The Laying of Latent Eggs by Lepidurus apus (Notostraca, Crustacea) Under Natural Conditions 103

Number 4

T.M. Mikheyeva: Methods of Counting Nannophytoplankton (A Survey) 1
Yu.P. Zaytsev, G.P. Garkavaya, D.A. Nesterova, and L.N. Polishchuk: The Danube as the Principal Source of Eutrophication of the Black Sea . . . 18
T.V. Zhukova: Behavior of Phosphorus and Its Role in Biological Circulation Eutrophication as Exemplified by the Naroch' Lakes 21
S.L. Belova: Seasonal Changes in Composition of the Infusoria of Mozhaysk Reservoir 27
T.M. Tiunova: Variation in Live and Dry Weight, Caloric Content, and Ash Content of Mayfly Larvae (Ephemeroptera) in the Period Between Molts . . 32
B.P. Mashina: Free-Living Nematodes of the Genus Enoplida in Kremenchug Reservoir 37
V.I. Vizhevskiy: Cultivation of the Mussels Mytilus galloprovincialis in Lake Donuzlav 41
L.V. Shevtsova and I.A. Grigorovich: Settlement of Sedimented Suspended Matter by Invertebrates in the Dnieper-Donbass Canal 48
G.A. Inkina: Microflora in Beds of Aquatic Macrophytes 54
T.I. Bilik: Effect of Ecological Factors on Adenine Nucleotide Metabolism in Fish Muscle and Liver: A Survey 58
I.O. Alyakrinskaya: Partial Shell Decalcification in the Black Sea Mussel 66
A.V. Zhulidov and A.D. Pokarzhevskiy: Halogens in Freshwater Invertebrates 71
M.A. Novikov, A.G. Dmitriyeva, A.V. Ryazanova, and V.A. Veselovskiy: Toxicity of $CuCl_2$ to Scenedesmus quadricauda as Indicated by Fluorescence Characteristics 77
Yu.M. Barabasheva, T.I. Kol'tsova, and T.V. Polyakova: Statistical Test of a Quantitative Analysis of Bottle and Net Samples of Phytoplankton . . . 82
G.N. Oleynik and V.M. Yakushin: Method of Determining the Decomposition of Organic Matter in Bottom Sediments 86
N.I. Kotsar' and V.F. Kovalenko: Determination of the Toxicity of Natural Waters and Effluents from Changes in Oxygen Uptake of Hydrobionts . . . 90
M.I. Kuz'menko, B.I. Novikov, O.I. Nasvit, and V.M. Timchenko: Method of Collection, Pretreatment and Preparation of Bottom Sediments for Determination of Radionuclides 95
Ye.A. Zilov, A.R. Rudykh, and D.I. Stom: An Ecotoxicological Experiment Under the Ice in Lake Baikal 98
A.L. Demenik: Planktonic Rotifers of the Neman River and Their Involvement in the Breakdown of Organic Matter 101

Number 5

O.N. Bauer: Contribution of Soviet Hydrobiologists to the International Biological Program 1

V.M. Klokov, T.N. D'yachenko, S.Ya. Kozina, and G.A. Karpova: Changes in Vegetation of Sasyk Lagoon as a Result of Desalination 4
A.A. Nebrat: Structural Changes in the Planktonic Infusorial Community of Kremenchug Reservoir 9
L.N. Voloshko and T.G. Anisimova: Effect of Dredging Operations on the Phytoplankton of the Northwestern Caspian Sea 13
T.G. Moroz and V.L. Gil'man: Effect of Excavation of Sand on the Benthic Fauna of the Bug Lagoon 17
V.A. Movchan: Distribution of Microzoobenthos Along the Northern Donets-Donbass Canal 23
A.G. Arkhipov: Effect of Environmental Factors on Year-Class Strength of Commercial Summer-Spawning Fishes of the Black Sea 27
V.Ye. Zaika and N.P. Makarova: Frequency of Dividing Microorganisms as an Index of Their Reproductive Rate 32
A.A. Bikrun, Jr. and N.A. Miloserdova: Description of the Microflora of Black Sea Cetaceans 39
N.V. Chibisova and G.Yu. Matskyavichene: The Role of Testosterone, Estradiol and Progesterone in Stages of the Intermolt Cycle of Male Crayfish 43
T.A. Khoruzhaya: Prospects for the Use of Biochemical Indicators in Biomonitoring of Natural Waters 48
Ye.I. Kolupayev: Sensitivity of Test Functions as a Basis for Selecting Bioassays for Aquatic Toxicity 53
Ye.Ye. Gavrilenko and Ye.Yu. Zolotukhina: Accumulation and Interaction of Copper, Zinc, Manganese, Cadmium, Nickel and Lead Ions Absorbed by Aquatic Macrophytes 56
V.M. Timchenko, A.Ye. Yaroshevich, M.P. Kolesnik, and V.L. Gil'man: External Water Exchange of Flood Plain Lakes in the Dnieper Estuary Zone 63
F.Ya. Sid'ko, A.D. Aponasenko, and V.A. Vasil'yev: A Rapid Spectrophotometric Method of Determining the Concentration of Plankton Chlorophyll 67
A.P. Gordiyenko and A.G. Benzhitskiy: An In Situ Method of Investigating the Diurnal Variation of Picoplankton ATP 73
N.V. Vekhov: Procedural Recommendations for Investigating the Biology of Anostracans (Crustacea, Branchiopoda) in Shallow Water Bodies 76
R.V. Babko: A Microbenthos Sampler for Protistological Investigations . . . 81
K.V. Geniatulin: Method of Recognizing Pollutants in the Aquatic Environment by Modeling of Hydrobiont Reactions 83
D.Yu. Sorokin: Autotrophic and Heterotrophic Nitrification in Various Fresh-Water Habitats 87
N.L. Shevtsova, D.I. Shvets, and L.I. Yablonskaya: Effect of Gamma Irradiation on Certain Species of Fresh-Water Planktonic Algae 92
L.P. Telichko, Ye.Ye. Gusev, O.M. Neferov, and Ye.A. Shapiro: Use of Anometrine to Destroy Undesirable Crustaceans in Fish Ponds 99

Number 6

A.A. Protasov: Classification of Fresh-Water Periphyton Communities 1
T.F. Narusevich and Yu.N. Tokarev: Summer Phytoplankton of the Mediterranean and Its Bioluminescence 8
A.I. Korableva: Role of Phytoplankton in the Accumulation of Amino Acids in Dneprodzerzhinsk and Zaporozh'ye Reservoirs 15
Yu.P. Zaytsev, B.G. Aleksandrov, G.P. Garkavaya, A.D. Pavlenko, and Ye.M. Rusnak: The Active Surface of the River-Atmosphere Interface as a Distinctive Biotope 22
M.L. Ludyanskiy: Biological Fouling in Recirculating Water Supply Systems (A Survey) 24
O.A. Sergeyeva, R.A. Kalinichenko, L.G. Lenchina, and Ye.V. Medyanik: Effect of the Cooling System of a Fossil Fuel Power Station on Plankton 36
N.M. Kryuchkova: Planktonic Rotifers of Biological Treatment Ponds 41
G.N. Oleynik: Respiration Rate of Bacteria in the Plankton Subsystem of Canals of the Ukraine 49
V.N. Kozitskaya: Effect of Illumination and Temperature on Algal Growth: A Survey 53
V.A. Bykovskiy: Storage of Solar Energy by Stands of Pondweed and Elodea . . 68

V.D. Romanenko, L.S. Kipnis, K.I. Zaychenko, and M.A. Fomovskiy: Effect of Aluminum Dihydroxychloride on Membrane Microstructure of Carp Eggs 75
I.O. Alyarkinskaya: Physiological and Biochemical Requirements for Stability of Rapana 81
A.V. Lyashenko and T.A. Kharchenko: Oxygen Uptake of a Fresh-Water Hydroid 85
L.P. Braginskiy, F.Ya. Komarovskiy, E.P. Shcherban', P.N. Linnik, and L.F. Osipov: The Ecological-Toxicological Situation in Aquatic Environments: Main Principle of Its Evaluation and Forecasting 89
